# INTRODUCTION AND GENERAL INDEX

HILL DIRECTORY CO., Inc., publishers of South-eastern Directories, present to subscribers and the general public, this, the 1959 edition of the Waynesville, Hazelwood and Lake Junaluska City Directory, which also includes the rural routes emanating from the Waynesville post office.

This is the first Hill Directory of Waynesville, Hazelwood and Lake Junaluska and is completely standardized according to the policies and practices of the Association of North American Directory Publishers.

Confidence in the growth of Waynesville, Hazelwood and Lake Junaluska's industry, population and wealth, and in the advancement of their civic and social activities, will be maintained as sections of this Directory are consulted, for the Directory is a mirror truly reflecting Waynesville, Hazelwood and Lake Junaluska to the world.

The enviable position occupied by Hill's Directories in the estimation of the public, has been established by rendering the best in Directory service. With an unrivalled organization, and having had the courteous and hearty cooperation of the business and professional men and residents, the publishers feel that the result of their labors will meet with the approval of every user, and that the Waynesville, Hazelwood and Lake Junaluska Directory will fulfill its mission as a source of authentic information pertaining to the communities.

## Five Major Departments

The five major departments are arranged in the following order:—

I THE YELLOW PAGES constitute the first major department of the Directory. This embraces a complete list of the names and addresses of the business and professional concerns of Waynesville, Hazelwood and Lake Junaluska, arranged in alphabetical order under appropriate headings—a catalog of all the activities of Waynesville, Hazelwood and Lake Junaluska. Preceding this catalog, likewise grouped under appropriate headings, are the advertisements and business cards of firms and individuals desiring to present a more complete list of their products or services than is possible in the catalog itself. The Yellow Pages represent reference advertising at its best, and merit the attention of all buyers and sellers seeking sources of supply or markets for goods. In progressive communities like Waynesville, Hazelwood and Lake Junaluska, the necessity of having this kind of information up-to-date and always immediately available, is obvious. The Directory is the common intermediary between buyer and seller, and plays an

Waynesville, Hazelwood and Lake Junaluska City Directory, 1959 Edition, Hill Directory Co., Inc., Waynesville, N.C.

important role in the daily activities of the commercial, industrial and professional world.

II THE ALPHABETICAL LIST OF NAMES of residents and business and professional concerns is the second major department, printed on white paper. This is the only record in existence that aims to show the name, marital status, occupation and address of each adult resident of Waynesville, Hazelwood and Lake Junaluska, and the name, official personnel, nature and address of each firm and corporation in these communities.

III THE DIRECTORY OF HOUSEHOLDERS, INCLUDING STREET AND AVENUE GUIDE, is the third major department, printed on green paper. In this section the numbered streets are arranged in numerical order, followed by the named streets in alphabetical order; the numbers of the residences and business concerns are arranged in numerical order under the name of each street, and the names of the householders and concerns are placed opposite the numbers. The names of the intersecting streets appear at their respective crossing points on each street. Special features of this section are the designation of tenant-owned homes and the listing of telephone numbers.

IV THE NUMERICAL TELEPHONE DIRECTORY, on blue paper, is the fourth major department.

V THE WAYNESVILLE RURAL ROUTES DIRECTORY is the fifth major department, printed on white paper.

#### Community Publicity

The Directory reflects the achievements and ambitions of the community, depicting in unbiased terms what it has to offer as a place of residence, as a business location, as a manufacturing site and as an educational center. To broadcast this information, the publishers have placed copies of this issue of the Directory in Directory Libraries, where they are readily available for free public reference, and serve as perpetual and reliable advertisements of Waynesville, Hazelwood and Lake Junaluska. There are more than 700 of these Directory Libraries, installed and maintained in the chief cities of the U. S. and Canada through the courtesy of members of the Association of North American Directory Publishers, under whose supervision the system is operated and of which Hill Directory Co., Inc. is a member.

The publishers appreciatively acknowledge the recognition by those progressive business and professional men who have demonstrated their confidence in the City Directory as an advertising medium, with assurance that it will bring a commensurate return.

### WELCOME TO WAYNESVILLE

The resort area around Waynesville offers the best for a mountain vacation. Waynesville is in the heart of the Smokies, strategically located between the Pisgah National Forest and the Great Smoky Mountains National Park. It is completely encircled by mountain

ranges over 5,000 feet high and mountain peaks over 6,000 feet.

Hiking and horseback trails lead to the tops of the highest ranges and two of them, one on the Pisgah Ledge and Wagon Road to Beech Gap and the other from Soco to Heintooga, are traversed by the Blue Ridge Parkway. This is the safest, most scenic motor road in Eastern America. Waynesville and Haywood County were originally the very heart of the Cherokee Country and today, Waynesville is in the center of everything worthwhile for a successful mountain vacation.

From the valley floors, you look up to mountain peaks over 6,000 feet above sea level. From mile high scenic points, where you drive in your car, you look down into the valleys. The richly forested peaks and mountain slopes, shrouded by the smoky blue haze that gives them their name, provides a variety of scenic beauty unexcelled anywhere. These, the oldest mountains on earth, already old when other mountain chains were being formed, create an awe-inspiring fascination for the visitor.

Waynesville is in a land of waterfalls. Soco, Looking Glass, and Yellowstone Falls are within a few minutes drive from town. Toxaway Falls, Dry Falls, Bridal Veil Falls, and Cullasaja Falls are all to be seen on an easy day's loop drive from Waynesville. These are all visible from the highways. Dozens of others are to be seen from side roads and over short hiking trails.

There are millions of acres of forests in the Great Smoky Mountains National Park and National Forests in Western North Carolina that are open to the public for camping, picnicking, fishing, and hunting. Nantahala and Pisgah are two of the largest National Forests. The Great Smoky Mountains National Park is the most popular of all National Parks in the nation. It leads all others in the number of visitors annually.

Three miles to the east is Lake Junaluska, a 250-acre lake, the home of the Lake Junaluska Methodist Assembly. This is the outstanding religious, education, and recreation center of the area. Fishing, boating, swimming, and golf are open to the public. Supervised play and swimming, movies, and other forms of recreation are offered for younger children. A Children's Center and a \$100,000.00 Youth Building are among the latest additions to the Lake's facilities. Modern accommodations are available on the Assembly Grounds and at motor courts nearby.

Seven miles northwest of Waynesville on U. S. Highway 19 is the beginning of North Carolina's most beautiful resort community. It is as picturesque and as colorful as the name it bears, Maggie. Maggie Valley is at an elevation of some 3,500 feet above sea level and is shadowed by peaks measuring above 6,000 feet. The Valley is always cool, especially during the twilight and evening hours after the sun goes down. Maggie is becoming famous as a resort community providing for her

WAYNESVILLE, N. C.

guests the best foods, accommodations, recreation, and entertainment in a mountain valley setting, unmatched in natural beauty anywhere.

Waynesville in the mountain represents a different kind of living. Residents are stimulated to activity by the invigorating atmosphere. Natives and visitors alike are on a constant search for more things to do, places to go, and things to see. Waynesville inspires a new zest for living.

The Waynesville Country Club golf course is one of the finest in all North Carolina. It is enjoyed by golfers from all over the country, many of whom come to Waynesville for this reason alone. The eighteen hole course is open the year round and during the summer months it is very rare when the course cannot be used at some time during each day.

Living in the mountains is living at its best. The climate is stimulating. The people are industrious. The majority are land and home owners. The friendliness of the people, the cultural environment, and the year around climate marked by four distinct seasons, spring, summer, fall, and winter, are attracting more and more people who are seeking the ideal location for retirement. People from the north who are seeking a milder winter climate and people from the south who want more variety in every day living are finding exactly what they want at Balsam, in Waynesville, at Lake Junaluska, and in Maggie Valley.

#### **Waynesville's Geographic Location and Transportation**

Waynesville's location is not only near the center of the population of the eastern half of the nation but is also in the geographic center. Its location is strategic from the standpoint of procurement of supplies and the distribution of finished goods. Rail freight facilities are good. Highway transportation is good and becoming even better.

A manufacturing plant located in Haywood County will in no case be more than a matter of minutes away from the new interstate highway that will connect the main arteries of traffic into the Midwest, the East, the Middle Atlantic states and the Southeast. When this interstate is placed in operation within the next three years, even the most heavily loaded motor freight trucks will be out of the mountains of Western North Carolina in less than an hour's driving time after leaving the plant in Haywood County. Furthermore, due to the location, design and construction of this road, freight can move over it 365 days a year, 24 hours a day. There will be no mountains to cross.

Within the next two years, the road to Atlanta will have been completely relocated or rebuilt. This road leads into the heart of a great market for Western North Carolina farm produce and manufactured goods.

In the foreseeable future, new airport facilities will be installed in nearby Buncombe County that will bring

Waynesville and Haywood County within thirty minutes of a modern airport offering the latest in air transportation.

### Waynesville's Good Climate and Water

Aside from the aesthetic values of good climate and beautiful scenery, industries operating here have learned that on a year around basis, Waynesville and Haywood County offers the best climate and working environment found anywhere in the country.

Air-conditioning is not necessary. None of our manufacturing plants are air-conditioned. Not even in The Dayton Rubber Company where vulcanizers and autoclaves at extremely high temperatures are in constant use. Exhaust fans are placed in the ceiling to exhaust heat and fumes but on may days, even in the summer, these fans are never in use.

Our good climate insures top operating efficiency and productivity on the part of the work force. Evenings are particularly cool, thus affording working comfort for those on the job and sleeping comfort for those at home. Winter weather is generally mild with little snow or storm conditions. Workers rarely lose a day's work on account of adverse weather.

Such working conditions are rare in other parts of the country and pay off in dollars and cents advantages for our manufacturing plants.

Our rare combination of climate, weather, and soils also combine to produce vegetables, apples and other fruits of the finest flavor grown anywhere. The flavor of our vine-ripened tomatoes, sweet corn, green beans and apples is unexcelled, adding to the the pleasures of those fortunate enough to live in such a garden spot.

### Summary

Waynesville and Haywood County offers to new industries:

1. The best in climate and weather to suit your needs.
2. The purest water in unlimited quantities for domestic and industrial use.
3. A surplus supply of the most productive labor force in the country.
4. An abundant supply of hydro-electric power at economical rates.

### **Profitable Haywood County Industries**

The A. C. Lawrence Leather Company, Hazelwood, North Carolina (Haywood's oldest industry—1879). A Swift subsidiary manufacturing tanning extracts, leather for industrial and domestic uses and a cut-sole division producing top quality leather soles. Operating very profitably in the face of tough competition from other products. Similar operations have closed and are still being closed by other companies all over the country. One of the best operations of the company's five remaining tanneries. Labor is skilled and highly productive. Has no fear of new industries.

Unagusta Manufacturing Corporation, Hazelwood, North Carolina. Began operation as Waynesville Furniture Company in 1903. Manufacturers of fine and medium - priced bedroom and dining room furniture. Recently moved into new ultra-modern 200,000 square foot building. Continues to compete successfully with furniture manufacturing center in High Point, North Carolina. Cooperative labor and management ingenuity are the secrets. Members of management actively support efforts to attract new industries.

The Champion Paper & Fibre Company, Canton, North Carolina. The Carolina Division came to Haywood in 1906 from Hamilton, Ohio. Now employs 3,000 people. Currently in the midst of two year expansion program. Highly profitable operation, excellent labor and community relations. Management welcomes more good industries to Haywood.

The Royle & Pilkington Company, Waynesville, North Carolina. Came to Waynesville in 1928 through community cooperative efforts. Local capital financed building. A very satisfactory experience for community and company. Engaged in manufacturing fine tapestry and upholstery materials.

Wellco Shoe Corporation, Waynesville, North Carolina. Started in Waynesville with forty employees in 1941. Now employs 400 people manufacturing over 6,000 pairs of shoes daily. Home office of Wellco-Research now operating in 72 countries. Management extremely active in efforts to attract more industries to absorb growing labor force. Mentions area in national advertising program.

The Dayton Rubber Company, Waynesville, North Carolina. Began operations in Waynesville in 1941 with 12 employees. Grew to 225 within two year. This was to have been absolute maximum. Company has expanded continuously since the beginning, now has 10 times original floor space and over 1,200 employees. Still growing. Welcomes good industrial neighbors.

Many smaller industries operate throughout county employing only a few people. All realize need for new

job opportunities and actively support industrial expansion program.

Smoky Mountains Fertilizer Company, Waynesville.

Giles Chemical Company, Waynesville.

Plemmons Concrete Products Company, Canton.

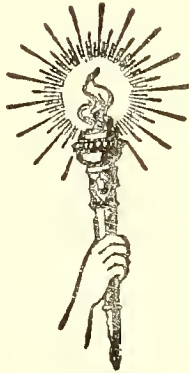

Underwood Novelty Company, Waynesville.

Warner Lumber Company, Asheville.

Many other saw mills and lumber operations.

Proctor & Schwartz, Inc. (a community project—building under construction). Haywood's newest industry, a 106-year old machinery making firm from Philadelphia, opening a plant near Waynesville to serve the Southern markets. Specializes in fiber processing equipment of all types.

A family of prosperous, growing industries that bids you welcome to Western North Carolina and Haywood County; a family which you will be both fortunate and proud to join.

The importance of keeping firm and product names in the public eye is recognized by all business men. It is astonishing to see how a firm or product, however meritorious, will slip into the limbo of the forgotten if not persistently advertised.

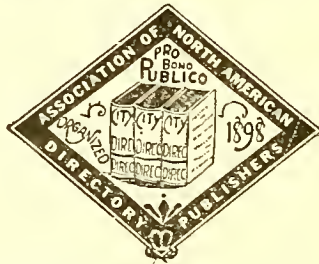

The City Directory is the natural medium for keeping a business or product name in the spotlight. Insist on being well represented in its pages.

as a business and social reference book and director of buyer and seller.

5. To decline any advertisement which has a tendency to mislead or which does not conform to business integrity.

6. To solicit subscriptions and advertising solely upon the merits of the publications.

7. To avoid misrepresentation by statement or inference regarding circulation, placing the test of reference publicity upon its accessibility to seeker, rather than on the number of copies sold.

8. To co-operate with approved organization and individual engaged in creative advertising work.

9. To avoid unfair competition.

10. To determine what is the highest and largest function of Directories in public service, and then to strive in every legitimate way to promote that function.

\$100 Reward will be paid by the Association of North American Directory Publishers for the arrest and conviction of any person or persons engaged in the publishing, collecting or canvassing for any fraudulent or fake directories.

# Please! Do Not Lend Your CITY DIRECTORY

IT COSTS YOU MONEY—Every Time it Is Loaned

The practice of lending your City Directory, in a great measure, is responsible for the increasing cost of Directory Service.

The reason is:—

There is a definite cost involved in the making of the DIRECTORY of Your City.

THIS COST MUST BE ABSORBED BY THE SUBSCRIBERS—BE THEY ONE—OR BE THEY 1000.

If there were but ONE SUBSCRIBER to the CITY DIRECTORY—THE ONE SUBSCRIBER would of necessity have to absorb THE WHOLE COST.

If there were 100 SUBSCRIBERS—each one would have to absorb 1/100th PART OF THE WHOLE COST.

If there were 1000 SUBSCRIBERS—each one would have to absorb 1/1000th PART OF THE WHOLE COST.

From which it is obvious that the GREATER the number of subscribers—the LESSER the cost to each.

And

It is also obvious that the LESSER the number of subscribers—the GREATER the cost to each.

Every time you loan your City Directory the LESS NECESSITY THERE IS FOR THE BORROWER TO SUBSCRIBE FOR THE SERVICE.

MORE BORROWERS result in FEWER SUBSCRIBERS which means INCREASED COST.

## *Out of Sight • Out of Mind* ★ *Out of Business* ★

The importance of keeping firm and product names in the public eye is recognized by all business men. It is astonishing to see how a firm or product, however meritorious, will slip into the limbo of the forgotten if not persistently advertised.

★

The City Directory is the natural medium for keeping a business or product name in the spotlight.  
*Insist on being well represented in its pages.*

## "r" AND "h"

Two important symbols are used in your City Directory. The symbol "r," before an address stands for "Resident." That person resides at that address but is not the head of the family or family head. The symbol "h" stands for "Householder"—the person in whose name the home is occupied.

Do your employers furnish you with  
the latest edition of the City Directory?

★

You need it at your elbow at all times, to protect  
your company from forgers and bad-check artists.  
A few questions, checked against City Directory  
information, will trip them at once. Intelligent use  
of the City Directory for this purpose has saved  
thousands of dollars and helped make some cities  
"too sharp" for bad-check "operators."

# Please! Do Not Lend Your CITY DIRECTORY

IT COSTS YOU MONEY—Every Time it Is Loaned

The practice of lending your City Directory, in a great measure, is responsible for the increasing cost of Directory Service.

The reason is:—

There is a definite cost involved in the making of the DIRECTORY of Your City.

THIS COST MUST BE ABSORBED BY THE SUBSCRIBERS—BE THEY ONE—OR BE THEY 1000.

If there were but ONE SUBSCRIBER to the CITY DIRECTORY—THE ONE SUBSCRIBER would of necessity have to absorb THE WHOLE COST.

If there were 100 SUBSCRIBERS—each one would have to absorb 1/100th PART OF THE WHOLE COST.

If there were 1000 SUBSCRIBERS—each one would have to absorb 1/1000th PART OF THE WHOLE COST.

From which it is obvious that the GREATER the number of subscribers—the LESSER the cost to each.

And

It is also obvious that the LESSER the number of subscribers—the GREATER the cost to each.

Every time you loan your City Directory the LESS NECESSITY THERE IS FOR THE BORROWER TO SUBSCRIBE FOR THE SERVICE.

MORE BORROWERS result in FEWER SUBSCRIBERS which means INCREASED COST.

# This Publication Is The Product of a Member of

—thus assuring you the ultimate service that skill and care can produce in the way of City Directories or other reference media, and providing protection against fraudulent advertising schemes which operate under the name of Directories.

The following "Standards of Practice," adopted at the inception of the Association of North American Directory Publishers in 1898, and strictly adhered to over the years, is your guarantee of satisfactory Directory Service.

The publisher of a Directory should dedicate his best efforts to the cause of business uplift and social service, and to this end pledges himself:

1. To consider, first, the interest of the user of the book.

2. To subscribe to and work for truth, honesty and accuracy in all departments.

3. To avoid confusing duplication of listings, endeavoring to classify every concern under the one heading that best describes it, and to treat additional listings as advertising, to be charged for at regular rates.

4. To increase public knowledge of what Directories contain; to study public needs and make Directories to supply them, to revise and standardize methods and classifications, so that what is wanted may be most easily found, and the Directory be made to serve its fullest use

as a business and social reference book and director of buyer and seller.

5. To decline any advertisement which has a tendency to mislead or which does not conform to business integrity.

6. To solicit subscriptions and advertising solely upon the merits of the publications.

7. To avoid misrepresentation by statement or inference regarding circulation, placing the test of reference publicity upon its accessibility to seekers, rather than on the number of copies sold.

8. To co-operate with approved organization and individuals engaged in creative advertising work.

9. To avoid unfair competition.

10. To determine what is the highest and largest function of Directories in public service, and then to strive in every legitimate way to promote that function.

\$100 Reward will be paid by the Association of North American Directory Publishers for the arrest and conviction of any person or persons engaged in the publishing, collecting or canvassing for any fraudulent or fake directories.

**WHY A  
YELLOW  
PAGE  
SECTION ?**

---

**\*It is customary to include  
a Yellow Page Section in  
the City Directory because:**

It gives business firms the  
opportunity to elaborate upon  
a description of their products  
and services impossible in  
the limited space of regular  
Alphabetical and Classified  
listings.

✱

**The Yellow Page Section is a necessary supplement  
to the regular listings; it is good City Directory in-  
formation . . . EXTENDED.**

## HILL'S WAYNESVILLE, HAZELWOOD AND LAKE JUNALUSKA

Directory of Householders, Occupants of Office  
Buildings and Other Business Places, In-  
cluding a Complete Street and  
Avenue Guide

### 1959

Copyright, 1959, by Hill Directory Co., Inc.

In the following list the numbered streets are arranged in numerical order followed by the named streets in alphabetical order, the intersecting streets being shown. The number of each building on the street is given in numerical order, and opposite the number is placed the name of the occupants or houseowner or tenant. In the business blocks containing offices the occupants are shown by room numbers where practicable, in apartment home the number denotes the number of the apartment. In all streets both sides of the street are included in one list. The profession or business of individuals or firms is given only at their respective place of business; to find occupation of others refer to Alphabetical List of Names.

The symbol © following a householder's name indicates that we have received information during the canvass that the house is owned by some member of the family, but as the publisher cannot and does not guarantee the correctness of the information furnished, nor the complete absence of mistakes no responsibility for errors can be or is assumed, nor can the publisher furnish further information than that shown.

Telephone number, as supplied to us on our canvass are shown opposite names.

Figures in parenthesis denote old numbers.

(The numerals that appear at right edge of columns, ahead of street descriptions and some street intersections, are merely for the guidance of the publishers, and have no other significance.)

(This section includes some listings reading "No Return." In each case the Publishers tried diligently, by various means, to obtain the information for the occupants but were unsuccessful. First, two personal calls were made by an enumerator; next, a double postal card was mailed and the telephone used when possible.)

## AIDS TO PROPER MAILING

Do not use "Township" as part of your address.

Write name and address plainly and completely.

Place name and address of sender on all matter.

Prepay postage fully on all letters and parcels.

Always address mail for city delivery to street and number and request correspondents to do likewise.

Use designation North or South, East or West when it is a proper part of the address and save delay in delivery.

Insure valuable parcels except those containing small articles of considerable value which should be registered.

Wrap parcel post carefully in heavy paper and tie knots securely.

You will often gain a day's time in delivery by depositing mail as soon as it is ready.

Use Postal Unit numbers on mail addressed to cities where Unit Numbers are required.

## VITAL INFORMATION AT YOUR FINGER-TIPS

★ Tens of thousands of people who were formerly strangers to the City Directory are consulting it on questions of citizenship, employment, sources of supply, communications, etc. Also, Directory usage is **up** among regular subscribers.

**More People Are  
SEEING CITY DIRECTORY ADS**

## **Out of Sight - Out of Mind**

### **★ Out of Business ★**

The importance of keeping firm and product names in the public eye is recognized by all business men. It is astonishing to see how a firm or product, however meritorious, will slip into the limbo of the forgotten if not persistently advertised.

The City Directory is the natural medium for keeping a business or product name in the spotlight.  
**INSIST ON BEING WELL REPRESENTED IN ITS PAGES.**

**CITY DIRECTORY  
ADVERTISING  
is *National* ADVERTISING**

★ Each edition of your City Directory is widely distributed to free - reference City Directory Libraries located at the Chambers of Commerce of Hundreds of other cities.

Therefore your ad in the City Directory is seen by buyers from coast-to-coast

**I**N ADDITION to names and addresses, your City Directory contains much detailed information concerning the people of your community. In order to list this information certain symbols and designations have been developed which enable important statistics to be compressed into the smallest possible space. You will receive far greater benefits from your City Directory if you familiarize yourself with the symbols and what they stand for.

In checking credit applications, in conducting direct mail advertising programs, in planning sales campaigns, in building prospect lines, and in scores of other ways your City Directory will prove of invaluable assistance.
